Scoring Instructions: If you answered “YES” to 3 or more questions, and you have had these symptoms for at least two weeks, you may benefit from a screening interview with Dr. Sadock.

DISCLAIMER: this online Sexual Disorders Screening Test is a preliminary screening test for sexual disorders that does not replace in any way a formal psychiatric evaluation. It is designed to give a preliminary idea about the presence of mild to moderate sexual disorders that indicate the need for an evaluation by a psychiatrist.
